Badsanierung mit Küberit Design-Wandprofile

Für die Badrenovierung z.B. mit HPL-Schichtstoffplatten oder für Aluminium-Verbundsysteme haben wir ein Design-Wandprofilesortiment entwickelt, das die Montage der Platten und die Arbeiten an den Stößen und Kanten wesentlich erleichtert. Das Ergebnis sind fugenlose, pflegeleichte Oberflächen, die die Hygiene verbessern sowie die Schmutz- und Schimmelbildung verhindern. Die bewährte Profiltechnik von Küberit wird vom Boden auf die Wand fortgeführt.

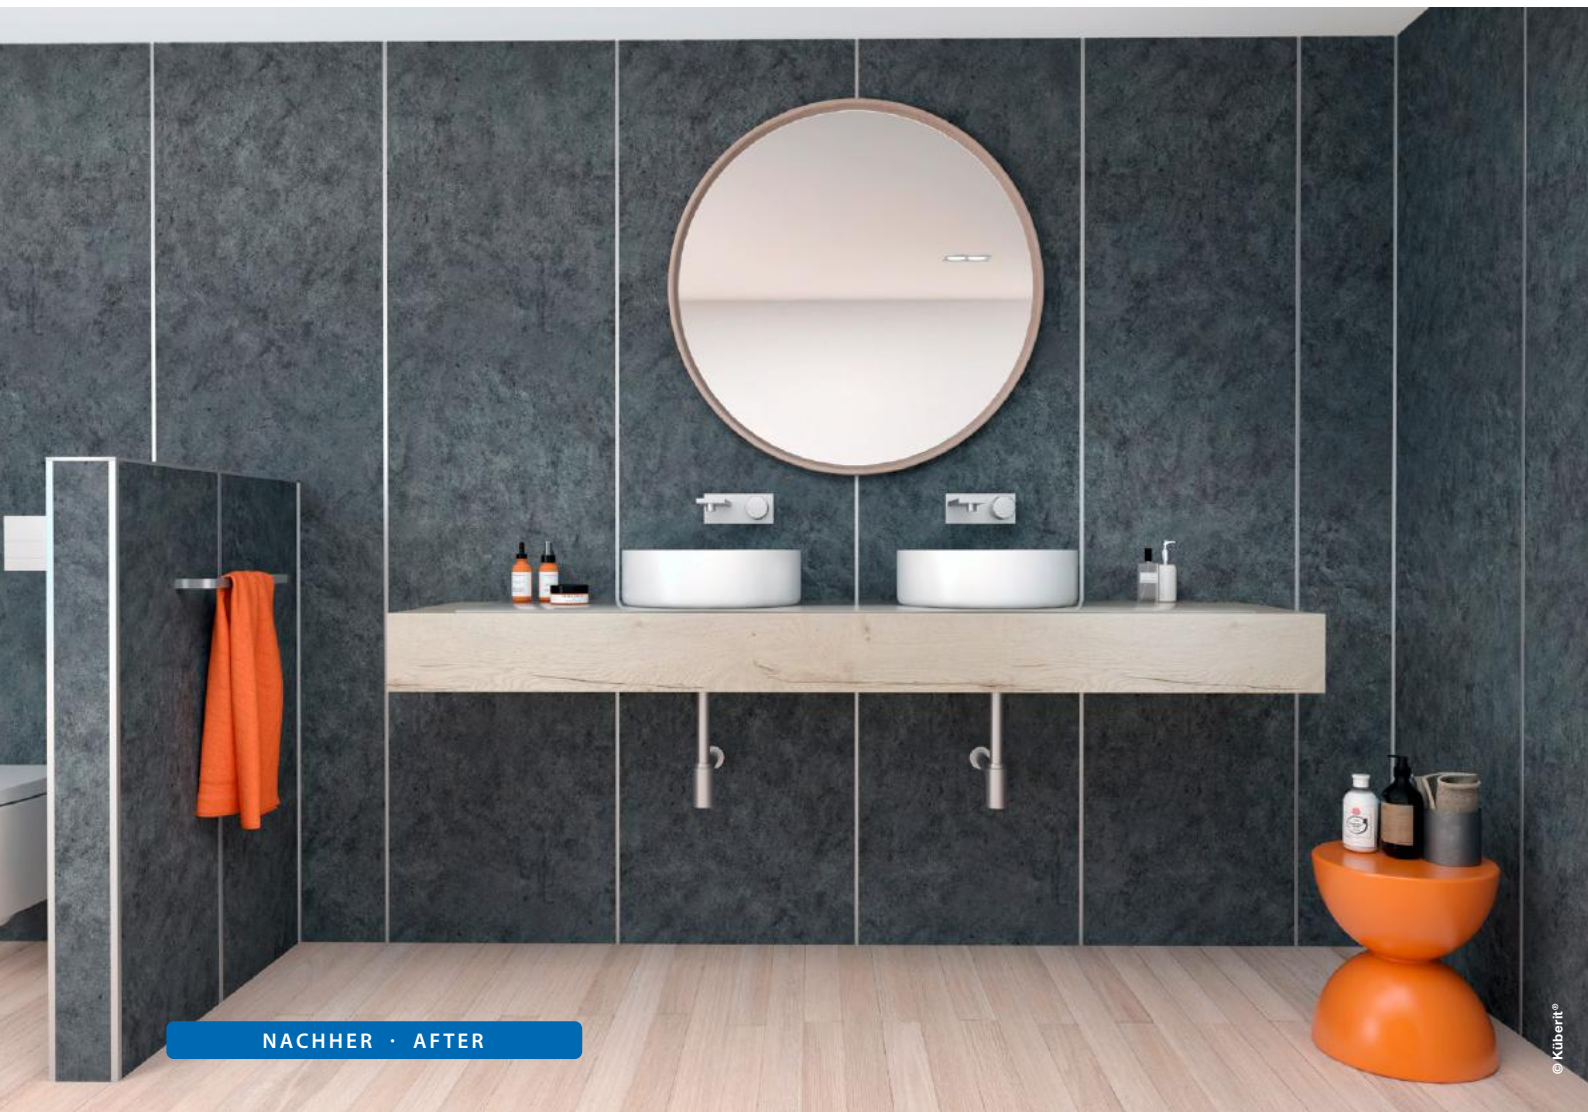

Bathroom renovation with Küberit designer wall profiles

For bathroom renovation, e.g. with HPL laminate panels or for aluminum composite systems, we have developed a designer wall profile range that makes it much easier to install the panels and work on the joints and edges. The result is jointless, easy-to-clean surfaces that improve hygiene and prevent the formation of dirt and mold. Küberit's proven profile technology is continued from the floor to the wall.
